A BETTER GLASS OF WINE

Our promise to you is a better glass of wine. One that you are proud to serve, your customers will enjoy, and is sustainable.

FRESHNESS

No more oxidized wines by the glass or waste.

VALUE

Save 10-15% or more compared to same wine from bottle and eliminate loss from corked bottles and oxidized wines.

CONVENIENCE

More compact and easier to handle than 26+ bottles. No empty bottles to dispose of.

ECO-FRIENDLY

One keg used for wine over its lifetime will eliminate 3,000+ bottles, closures/foils, and labels from the waste stream.

WHO WE ARE Gotham is a collaboration between **Charles Bieler** (Bieler Pere et Fils, Charles & Charles, Three Thieves) and **Bruce Schneider** (Schneider Vineyards, Schneider Selections, Onabay Vineyard).

Gotham Project's inaugural release was "The Finger," a 2009 Finger Lakes Riesling from Seneca Lake, NY, aka The Middle Finger. Once a few hard core friends began to offer Gotham on tap we started to get requests for more options.

GOTHAM & FRIENDS In order to offer a variety of soulful options we turned to our own winemaking projects (NY, WA, CA, France, and Portugal) and our friends to offer a collection of authentic and exciting juice from coast to coast and around the world.

UNCOMPROMISING QUALITY Gotham Project is the only vertically integrated wine-on-tap company in the United States. Our wine "filling station" in Bayonne, NJ just a few miles from The Port of NY/NJ, the #1 port for imported wines in the

U.S. ensures that all wines remain as fresh as their first day of life until it hits your glass.

Since 2010 Gotham has eliminated 2,000,000 glass bottles from the waste stream.

Less than 30% of all glass gets recycled. By replacing single use packaging with a reusable container we reduce carbon footprint.

TRUE BELIEVERS

Gotham Project wines are sold in 30 states and can be found in more than 400 leading on-premises outlets including Epicerie Boulud, Nomad, The Breslin at The Ace Hotel, The Standard Hotel, Ritz Carlton, and Whole Foods Café.
